EW2420

CO2 Monitor, Air Quality Detector

• This CO2 analyzer accurately and quickly checks the CO2 concentration indoors.
• In addition to measuring CO2, it has an environmental thermometer and a humidity meter
• It prevents the development of bacteria, germs, and viruses. Thanks to it, you can maintain satisfactory air quality

DESCRIPTION

The EWENT EW2420 CO2 detector gives accurate and real-time reports on the status of CO2 concentration, air quality, temperature and instantaneous humidity. Quality detection of air quality, temperature and humidity. It has independent NDIR sensors for the measurement of CO2, temperature, humidity, and a laser scattering sensor for air quality.
Our EWENT EW2420 has a screen with easy indication that informs us with just a glance of the air quality, temperature, and humidity. At the same time, we can check the harmfulness of CO2 instantly by means of colored indicators in an intuitive way.
The EWENT EW2420 CO2 meter is capable of accurately measuring air quality. To do this, it detects the presence of CO2 in a closed space and, therefore, the need for ventilation in case of excess carbon dioxide. With the current situation, it is an indispensable device to control and avoid overexposure to the presence of the virus.
This EWENT CO2 detector registers carbon dioxide in parts per million (ppm) and alerts us when the CO2 concentration is above the minimum allowed air quality.
This EWENT EW2420 CO2 detector is designed to be used both in general rooms and small rooms; Its portable design makes it indispensable for use anywhere.

TECHNICAL

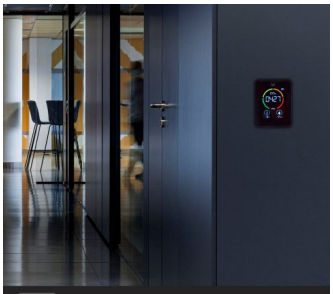
• CO2 detection range: 400-5000 PPM
• CO2 detection sensitivity: 1PPM
• Temperature measurement range: 0 ?50 ° C
• Temperature measurement precision: ± 1ºC
• Humidity measurement range: 0% ?99% RH
• Humidity measurement accuracy: ± 2% RH
• Charging method: USB Type C interface 1000mA
• Battery: Built-in 1200mAH lithium battery
• Net Weight: 150g

LOGISTIC

• Product Weigth: 145.00 g
• Retail packaging Dimension (mm): 140x95x50
• Retail packaging Weigth: 180 g
• Master carton Qty: 50
• Master carton Dimension (cm): 50x29x25
• Master carton Weigth: 10.00 kg

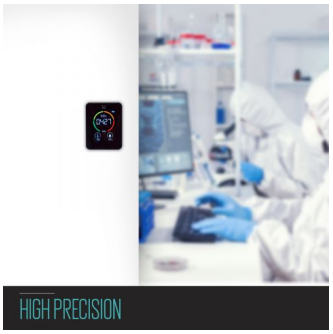
CO2 MONITORING: DIFFERENT CONCENTRATIONS

3 IN 1: CO2 DETECTOR, TEMPERATURE Y HUMIDITY



COMPACT DESIGN

EASY TO USE



HIGH PRECISION

USB CHARGER
