• Ideal for inflating mattresses and floats. Discreet yet with great suction power. Essential for use at home, work, or in the car.
• Get an air concentrator for your hair that doubles as a hair dryer.

DESCRIPTION

Super Powerful Turbo Jet: The Ewent EW5682 electric air duster develops motor speeds of up to 180,000 rpm. This allows it to effectively clean dust and debris. Its vacuum function makes it indispensable for use in the home and car, allowing it to suction up hidden dirt in small, hard-to-reach spaces. Its vacuum pump function for bags, suitcases, and other items, as well as its inflation function for floats and mats, make it essential for home or work use. It has 8-speed settings that will meet various cleaning needs.
Wide Application: The EWENT EW5682 electric air duster comes with 6 accessories that cover almost all applications for this type of device. It is the ideal device for a variety of scenes and everyday uses, such as PCs, keyboards, or other electronic devices. It is also suitable for cleaning homes, radiators, windows, etc. Essential for car use, removing dirt from the most inaccessible places.
4-hour quick charge: The EWENT EW5682 electric air duster supports a Type-C charging cable and can be fully charged in 4 hours. Once fully charged, it can be used for up to 60 minutes.
Portable and handheld: Weighing only 257g, the Ewent electric air duster is compact and easy to carry.
Conveniently store it in your travel backpack, place it in your vehicle's glove compartment, or leave it in a desk drawer. This blower-vacuum takes up hardly any space.
Save and reuse: With this EWENT air duster, you can save considerably compared to compressed air sprays. It is made of durable materials and has a long-lasting battery. This is the biggest difference compared to disposable compressed air sprays; The electric air duster can be recharged and reused again and again, economically and improving your cleaning experience.
