DESCRIPTION

The RJ45 Ethernet adapter with integrated USB-C cable and USB-C to USB-A adapter is the ideal solution for devices without a built-in network port.
It provides a stable and secure Gigabit Ethernet connection, offering reliable performance compared to unstable Wi-Fi networks, both in professional and home environments.
Thanks to its compact design with a 15 cm cable, it is easy to carry and perfect for desks with limited space. The dark grey aluminum metal housing ensures excellent heat dissipation and increased durability for everyday use.
Compatible with a wide range of USB-C and USB-A devices, this adapter is Plug & Play, requiring no drivers or software installation, making it a practical and reliable choice for work, study, or travel.
