- Supports motion detection and time-based recording
- Controllable with the free Eminent NVR smartphone and tablet app
- Compatible with the Eminent CamLine Pro cameras and other IP cameras with ONVIF 2.4 support
- HDMI, VGA and BNC connection to connect 3 local screens

DESCRIPTION

Record surveillance images from your Eminent CamLine Pro IP camera with the EM6304 Network Video Recorder. This Recorder includes everything you need to record your images easily. You can monitor 4 IP cameras at a time. Connect the NVR to a local monitor or to the Internet to see the images wherever you are. The free app enables you to monitor and control the NVR via your smartphone and tablet. You can built-in easily an optional HDD by yourself. The Network Video Recorder stores images on this built-in HDD when motion is detected or by using time-based recording. The NVR is compatible with IP cameras that support the ONVIF 2.4 protocol.
Keep an eye on your belongings
Do you own one or more Eminent CamLine Pro IP Cameras and you want to store the images on a central place in your network? With the EM6304 NVR you can view up to 4 live video streams and stores these videos images on an internal hard disk. The recorder can store high quality video over longer periods. Not only video images can be recorded but also audio can be recorded. Other IP cameras with ONVIF 2.4 support are compatible with the EM6304 Network Video Recorder as well.
Watch live video on a local monitor, via the Internet or your mobile phone
The EM6304 has a HDMI, VGA and BNC output so you can connect up to 3 local monitors or TVs. Connect the Network Video Recorder to the Internet and you can view the images even when you're not at home. Visit the webpage of the NVR to see the images from the connected cameras. Or install the free Eminent NVR app from the App Store or Play store to monitor and control the connected cameras.
Create video evidence
The NVR can record on specific times or when motion is detected. Do you want to back up a specific recorded event? Then you can use the built-in USB port to back up to an external hard disk or flash drive. Also, a network backup function is available. Additionally, you can export your video as a file and use it as evidence in case of burglary.
Multi-tasking: record and playback video at the same time
The EM6304 Network Video Recorder allows you to record and playback video at the same time. If you enter the playback mode, the digital video recorder will keep on recording video and audio in the background.

TECHNICAL

- ONVIF version: 2.4
- Video compression: H.264 hardware
- Video Output: 1x BNC
- VGA Port: 15-pin VGA
- HDMI Port: 1x HDMI High speed
- Resolution: Up to 1920x1080p (max)
- Audio Output: 1x cinch
- LAN Port: 10/100 Ethernet (RJ45)
- USB: 2x USB port
- HDD: 2,5 " / 3,5 " SATA Hard disk supported
- Max HDD capacity: 8TB (not included)
- PTZ Support: Pelco-D/P (for pan-tilt-zoom cameras)
- Supports: Dynamic DNS, Motion Detection, E-mail alert, DHCP

- External control: via webinterface, IOS and Android APP
- Power adapter: 12V DC 2A
- Power usage: 12W
- Dimensions in mm. (WxHxD): 314x45x225
- Weight in grams: 1053

LOGISTIC

- Product Weigth: 1344.00 g
- Retail packaging Dimension (mm): 450 x 390 x 90
- Retail packaging Weigth: 1620 g
