- Recording on micro SD card
- Receive push notifications and email during an alarm
- IR cut filter for accurate and natural coloured images
- Configuration and control via the free CamLine Pro Android/Apple smartphone app
- Suitable for iOS, Android, Windows and MAC OS X

DESCRIPTION

The EM6360 CamLine Pro Dome Outdoor HD IP Camera protects your home and garden. The Dome Camera is equipped with a water-resistant housing, HD sensor, IR cut filter and matrix infrared LED. The EM6360 is ready to use in only three steps and can be controlled all over the world with the free CamLine Pro smartphone app. A push notification or email with a picture will be sent when the camera detects any movement. Images can be stored on a micro SD card or Synology NAS. The EM6360 Dome Outdoor IP Camera is powered by a passive PoE solution. There are no subscription or monthly fees required.
Ready within only 3 steps
The EM6360 CamLine Pro Dome Outdoor HD IP Camera is ready to use in only 3 steps. Connect the camera to the Internet and download the free CamLine Pro app for your Android/Apple smartphone. Scan the unique camera code, fill out the password and you are ready to go. Control the Dome camera from anywhere in the world with the free app.
Suitable for outdoor use (IP66)
Use the EM6360 Dome Outdoor IP camera both outside and inside thanks to its water-resistant housing. Your home and garden are safely secured.
HD sensor and IR cut filter for good images
The built-in 720p HD sensor and IR cut filter ensures good images. Even at night. Is it too dark near the camera? The matrix infrared LED will switch on automatically. Thanks to the digital zoom function you are keeping even a closer eye on your belongings.
Receive Push notifications and email
Receive a push notification and/or an email with a picture of the event when the CamLine Pro Dome HD IP Camera detects any movement.
Store photo and video evidence on a micro SD card, NAS or FTP server
Insert easily a micro SD card into the camera and store all video images and pictures. Save the images on a FTP server or Synology NAS as the camera is listed in the Synology Surveillance Station.
ONE cable for both power and data
The EM6360 Dome Outdoor IP Camera is powered by a passive PoE solution. The power and data are distributed via one small cable. Only a small hole is needed to install the EM6360 IP Camera. Other conventional Outdoor IP camera brands require a very large hole for the bunch or cables.

TECHNICAL
