- Easy wireless network setup
- Wired network connection also possible
- Receive push notifications and email during an alarm
- IR cut filter for accurate and natural coloured images
- Configuration and control via the free CamLine Pro Android/Apple smartphone app
- Suitable for iOS, Android, Windows and MAC OS X

DESCRIPTION

Increase the sense of safety around your home and garden with the EM6355 CamLine Pro Outdoor 1080p Full HD IP Camera. The EM6355 has a waterproof housing (IP66) and delivers perfect images thanks to the Full HD sensor, IR Cut filter and Matrix infrared LEDs. The CamLine Pro Full HD IP Camera is ready to use in only three steps. The free CamLine Pro app lets you control the IP camera all over the world. If the camera detects any movement it will send a push notification or an email with a picture of the suspicious moment. The Outdoor HD IP Camera stores the images on a micro SD card, FTP server, Synology NAS, QNAP NAS or ASUSTOR NAS. There is no subscription or monthly fee required.
Ready to use in 3 steps
The EM6355 Full HD IP Camera is ready to use in only 3 steps. First, connect the IP camera to the Internet. Second, download the free CamLine Pro Android/Apple smartphone app. Finally, you need to scan the unique camera code, fill out the password and you are ready to control the Full HD IP Camera with the app from everywhere in the world.
Suitable for outdoor use (IP66)
The water resistant housing (IP66) makes sure that the EM6355 Outdoor 1080p Full HD IP Camera can be used outside. Your home and garden are safely secured.
Full HD sensor and IR Cut filter for clear images
The Full HD sensor and IR Cut filter of the EM6355 IP Camera ensure excellent images. Even at night. The Matrix infrared LEDs will switch on automatically once it gets too dark. You will have perfect images 24/7. Thanks to the digital zoom function you are keeping even a closer eye on your belongings.
Receive push notifications and email
If the CamLine Pro Outdoor Full HD IP Camera detect any movement, the EM6355 will send a push notification to your smartphone and/or send an email with a picture to your email address.
Store photo and video evidence on a micro SD card, NAS or FTP server
Insert easily a micro SD card into the camera and store all video images and pictures. Save the images on a FTP server or NAS as the camera is listed in the Synology Surveillance Station, QNAP Surveillance Station and ASUSTOR Surveillance Center.
Only one cable for power AND data
The EM6355 Outdoor Full HD IP Camera is powered by a passive PoE solution. Power and data are distributed via one small cable. In contradiction to conventional Outdoor IP camera brands which require a very large hole for the bunch of cables, you only need to create a small hole for a UTP cable. Did you know that you are able to connect the EM6355 IP Camera via WiFi too?
