EW1085

Micro USB Bluetooth Reciever Class 1

• Optimized energy consumption and improved stability: Version 5.3 optimizes energy consumption and stability, ensuring a better user experience.
• Improved transmission speed and anti-interference capability: Version 5.3 offers better transmission speed and greater anti-interference capability, ensuring a more stable and faster connection.
• Powerful signal for long-distance transmission: Version 5.3 offers a powerful signal that allows long-distance transmission without obstacles of about 20 meters.
• Dual-module design for simultaneous reception and transmission: Thanks to the dual-module design, the Bluetooth adapter v5.3 allows simultaneous audio reception and transmission, ensuring a smooth experience with applications like Skype and other software.
• Better audio resolution capability: The updated chip of the Bluetooth adapter v5.3 offers better audio resolution capability, allowing you to enjoy high-fidelity and superior-quality audio for music and movies via Bluetooth connection.
• Connection to 7 Bluetooth devices simultaneously: The Bluetooth adapter v5.3 allows you to connect up to 7 Bluetooth devices simultaneously, including headphones, speakers, gamepads, keyboards, printers, mice, smartphones, etc. However, only one Bluetooth device can be connected on the same frequency at the same time.
• It is important to note that when using the Bluetooth adapter, it is advisable to disable the computer's built-in Bluetooth driver to avoid conflicts and connection issues.
