EM8760

Wireless Door/Window Contact (suited for the EM8710 Wireless GSM Alarm System)

Secure doors and windows

- Wireless Door/Window Contact suited for the EM8710 Wireless GSM Alarm System
- Works via the long range 868MHz frequency
- Two-way communication: notification when door/window is not closed, low battery warning and tamper alert
- Easy mounting with tape or screws
- Powered by 3 AAA Batteries (included)

DESCRIPTION

The EM8760 Wireless Door/Window Contact is suited for use with the Eminent EM8710 Wireless GSM Alarm System. The magnetic contact is suitable for both doors and windows. The alarm will be activated once a closed window or door will be opened. The communication of the Door/Window contact and alarm system is arranged by the 868MHz frequency. Besides the long range of 150 meters between the Door/Window Contact and the alarm system, the 868MHz provides a two-way communication function too. This two-way communication function notifies you when a door or window is not closed when the alarm system is armed. If the battery level gets low or the contact is sabotaged, you will receive a text message. The EM8760 works wireless and is powered by 3 AAA Batteries.

TECHNICAL

- Dimensions in mm. (WxHxD) sensor: 28,5 x 120 x 20,3
- Dimensions in mm. (WxHxD) magnet: 14 x 45 x 15
- Weight in grams: 54gr
- Power supply: 4,5V DC (3 x AAA 1,5V LR03)
- Stand-by current:
- Alarm current:
- Wireless reach: Over 150 meters (open field)
- Frequency sensor: 868MHz
- Temperature: -10 to 50 degrees Celsius
- Humidity:

LOGISTIC

- Product Weigth: 39.00 g
- Retail packaging Dimension (mm): 134 x 71 x 47
- Retail packaging Weigth: 138 g
- Master carton Qty: 75
- Master carton Dimension (cm): 38 x 43 x 25.5
- Master carton Weigth: 11.00 kg
