Mount and dismount your smartphone with only ONE hand

- Easily mount and dismount your smartphone with one hand
- Auto-detect: arms open and close automatically
- Fast wireless charging support
- USB Type-C to USB Type-A cable enclosed

DESCRIPTION

The EW1191 Automatic Smartphone Car Mount is the perfect solution for keeping your smartphone in place in your car. The car mount opens and closes automatically. You can put your smartphone into the mount with only ONE hand. The EW1191 Car Mount supports fast wireless charging when connecting an additional fast USB car charger.
Place you smartphone with only ONE hand
The Automatic Smartphone Car Mount must be placed in the air vent of your car. Connect the enclosed USB Type-C to Type-A cable to your USB car charger. You can place your smartphone in the mount with only ONE hand. Just by holding the smartphone in front of it. The auto-detect function automatically opens the arms and you can place your smartphone into the mount. To dismount you easily touch the unlock button on the side of the car mount. The arms open and you can take your smartphone from the stand.
Fast wireless charging support
Does your smartphone support wireless charging? The EW1191 Automatic Car Mount supports fast wireless charging. Just use a fast USB car charger and the EW1191 will charge your smartphone quick and wireless. You can charge your phone wirelessly with a normal USB car charger as well. The LED light on the side of the stand shows the charging status.
Charge your smartphone with a cable
Did you know that you always can use the EW1191 Automatic Smartphone Car Mount, even when your smartphone doesnt support wireless charging? Just connect your phones normal charging cable to a USB car charger when your phone is mounted to the EW1191.
