DESCRIPTION

Use the EW1356 USB-C Car Charger 36W to charge your smartphone/tablet via USB-C and USB-A. The USB-C port of the charger has Power Delivery and supports fast charging for Power Delivery enabled devices. The USB-A port supports Quick Charge 3.0. Does your smartphone/tablet support Quick Charge 3.0? It will be charged up to 4x faster (0-80% in only 35 minutes). Take the charger easily along by its compact design. The USB-C car charger is equipped with over temperature protection, over voltage protection, over current protection and short circuit protection. The charger stops charging automatically when the battery is full.
Fast charging with Power Delivery support
The USB-C port on the EW1356 supports Power Delivery. Does your smartphone/tablet has Power Delivery (PD) support as well? You can charge it even faster with this charger than via a conventional USB charger. The PD chip in the charger communicates with the PD chip in your device to get the best charging performance.
Quick Charge 3.0 support
Does your smartphone/tablet come with a USB-A charging cable and supports Quick Charge 3.0? The USB-A port supports Quick Charge 3.0. Your device will be charged up to 4x faster, 0-80% in only 35 minutes.
Fourfold protection
The EW1356 is equipped with over temperature protection, over voltage protection, over current protection and short circuit protection. Besides, the charging stops automatically when the device is fully charged.
