DESCRIPTION

Use the Play PL3301 RGB Gaming mouse for the best gaming experience. The mouse has a high accuracy optical sensor and lets you choose between four preset DPI levels up to 4800 DPI. The perfect grip of the mouse ensures an optimal gaming performance. No tangled cable anymore with the tangle-free nylon braided USB cable.High accurate DPI Levels: 1200-2400-3200-4800
The Play gaming mouse is equipped with a high accuracy optical sensor. The DPI switch lets you choose between four preset DPI levels from 1200 up to max 4800 DPI to get the maximum game experience. Simply press the DPI button to switch between the 4 DPI levels. You don’t need any software to change the DPI level.
RGB Colour modes
Get the most colourful gaming experience with the RGB breathing and running LED presets. Choose your favourite colour mode by pressing the dedicated button on the PL3301 Gaming Mouse. You don’t need any software to change the colour mode. If you want to disable the illumination, just turn off the LED.Perfect grip for comfortable gaming
The PL3301 is a specially designed mouse for comfortable grip. This gaming mouse with its high responsive buttons and light scroll wheel lets you beat your game opponents at an instance.Tangle-free nylon cable
The USB cable of the PL3301 has a nylon braided cover, so the cable will remain tangle-free.
