- HD 720p Wi-Fi Fixed IP Camera with micro SD card slot, 2-way audio and IR LEDs
- Receive a push notification when motion is detected
- Controllable via the free E-SmartLife app
- Flexible positioning and placement: desk/ ceiling/ wall
- Create automatic or manual scenes to enable and disable motion detection

DESCRIPTION

Keep your belongings safe with the EM6400 HD Wi-Fi Fixed IP Camera. This indoor HD 720p IP Camera works via Wi-Fi and is easy to set up and to use with the free E-SmartLife app. Receive push notifications on your smartphone when the EM6400 detects any movement. Insert a micro SD card and the camera will record the images. The IR LEDs provide clear images during nighttime. You can listen along with the images and speak back. The flexible mounting bracket lets you position the IP camera on a desk, ceiling or wall.Easy to install and to control via the free E-SmartLife app
The IP Camera works via the Wi-Fi network. Once added to your home network via a few easy steps in the free E-SmartLife app, the camera is ready to use and accessible from all over the world.
HD 720p IP Camera with IR LEDs
The EM6400 Fixed IP Camera has a HD 720p sensor to ensure good images. The quality of the night shots is guaranteed by the IR LEDs which enable themselves at night.Receive push notifications during motion detection
When the camera detects any movement, a push notification is sent to your smartphone. You can listen along and speak back with the 2-way voice communication. You are always up-to-date of the events in your surroundings.Record on a micro SD card
Do you want to record the images of the camera? Insert a micro SD card in the camera. The EM6400 will store the images on the micro SD card.Flexible placement
The EM6400 HD Wi-Fi Fixed IP Camera can be placed on many locations by its flexible placement. It can be mounted on a desk, wall and even ceiling.Create manual/automatic scenes in the app
Set a manual or automatic scene to execute one function or even multiple functions at once. For example: create an automated scene to turn on motion detection at sunset and turn it off at sunrise for all your E-SmartLife cameras. Or create manually an easy shortcut on the start screen of the app to enable or disable motion detection when you leave or enter your home.
