### DESCRIPTION

Keep an eye on your properties with the EM6420 Full HD Wi-Fi Fixed IP Camera for outdoor use. This Full HD 1080p Outdoor IP Camera works via WiFi and is easy to set up and to use with the free E-SmartLife app. The EM6420 has an IP54 rating and is suitable for outdoor use. Receive push notifications on your smartphone when the EM6420 detects any movement. Insert a micro SD card and the camera will record the images. The IR LEDs provide clear images during nighttime. You can listen along with the images and speak back.

Easy to install and to control via the free E-SmartLife app
The IP Camera works via the Wi-Fi network. Once added to your home network via a few easy steps in the free E-SmartLife app, the camera is ready to use and accessible from all over the world.Full HD 1080p IP camera with IR LEDs
The EM6420 has a Full HD 1080p sensor to ensure good images. The quality of the night shots is guaranteed by the IR LEDs which enable themselves at night.Suitable for outdoor use
Overlook your garden and house with the EM6420. Thanks to the IP54 rating, the IP Camera is suitable for outdoor use. Receive push notifications during motion detection
When the camera detects any movement, a push notification is sent to your smartphone. you can listen along and speak back with the 2-way voice communication. You are always up-to-date of the events in your surroundings.Record on a micro SD card
Do you want to record the images of the camera? Insert a micro SD card in the camera. The EM6420 will store the images on the micro SD card.Create manual/automatic scenes in the app
Set a manual or automatic scene to execute one function or even multiple functions at once. For example: create an automated scene to turn on motion detection at sunset and turn it off at sunrise for all your E-SmartLife cameras. Or create manually an easy shortcut on the start screen of the app to enable or disable motion detection when you leave or enter your home.
