EW5620

Anti seize spray

Suitable for moving and fixed mechanical parts

• Its particular formulation allows the product excellent anti-fatigue and anti-wear properties
• Strong wetting capacity that allows penetration into the structure of rust. Softens it and breaks it up
• Forms a protective layer strongly anchored to the metal, which stops and prevents the formation of rust and oxides. Preserves the metal surfaces from corrosion
• Removes grease, tar, combustion residues. It does not contain chlorinated solvents and propellants harmful to ozone
• 100% Ozone friendly

DESCRIPTION

The Ewent EW5620 Anti Seize Spray is the ideal product for a thousand occasions of use. From industry to car repair, from home to garden, from sports to boating, from work to DIY. It is a multi-functional mixture of mineral and vegetable oils, antioxidants, organic acids and special additives dissolved in aliphatic solvent with a high degree of "wettability", penetration and release and consequent lubrication of the treated parts.
