• Intelligent power-saving function for extended battery use
• Comfortable design with rubber surface

DESCRIPTION

The EW3240 Multi-Connect Wireless Mouse is the perfect companion when working on your laptop, computer and tablet. You can connect this mouse up to 3 devices at the same time: via the enclosed USB-C/USB-A combi dongle or via two Bluetooth connections. The 2-in-1 combi receiver is extremely compact and can be stored inside the mouse. Select your preferred accuracy with the DPI switch: 600/1200/1600/2000/2400. The Wireless Mouse has a comfortable grip because of the rubber surface. The solid metal scroll wheel and accessible side buttons ensure fast navigation through pages. The mouse is equipped with an intelligent power-saving function and an on/off switch.
One mouse, easily switch between multiple computers
The EW3240 Multi-Connect Wireless Mouse can be used on three different computers/laptops/tablets. The mouse can be connected to two devices via Bluetooth. Or connect the enclosed dongle to your computer or laptop. Switch between the devices by using the dedicated button on top of the mouse. The LED near the button shows on which connected device the mouse is active. Never worry again about which mouse to use. Just use the Multi-Connect Mouse.
Connect via Bluetooth: use the mouse without a dongle
Do you want to use the mouse and forgot to take the USB dongle along with you? Don’t stress out, the EW3240 mouse has the solution! Connect the mouse conveniently via Bluetooth to your device and start working instantly.
2-in-1 receiver
Do you want to connect the Wireless Mouse with a dongle to a computer/laptop that has a USB-C or USB-A port? The EW3240 has a special USB dongle. Despite its compact design, the dongle has both a USB-C and USB-A connector. Nevertheless, this receiver can be stored inside the battery compartment of the mouse.
DPI switch: 600/1200/1600/2000/2400
Select your preferred accuracy and precision effortlessly with the DPI switch. Choose between the DPI levels: 600/1200/1600/2000/2400 and select your preferred level.
Ideal for professional and home use
The EW3240 is designed for long-term usage. The rubber surface ensures a comfortable grip. Use the solid metal scroll wheel and the accessible side buttons for easy navigation through applications and pages.
Power-saving low battery function
The Multi-Connect Wireless Mouse has an intelligent power-saving function. The mouse will be in a sleep mode when it isn’t active for a while. Thanks to Bluetooth 5 less energy is used. Besides, the mouse also has a physical on/off switch so you can fully disable the mouse. Ideal to extend the battery life when the mouse is stored in your laptop bag and the buttons are accidentally touched.
