IM1281

Electrician Scissors with straight blades and double grip

• 3mm Stainless steel straight blade with micro-toothing
• Ergonomic shaped ABS handles
• Built-in wire stripper/Cable cutter
• Italian Quality

DESCRIPTION

It can be very complicated and dangerous to cut or strip an electrical cable, whether as a hobby or professionally. For this reason it is necessary to have adequate and safe scissors!
The Ewent IM1281 professional scissors are suitable for intensive use and ideal in all electrical and electronic applications. The ergonomic bimaterial ABS handles make it an easy to use and comfortable scissor handle: the special handle with a double grip ring guarantees less effort and more power in the cut. Equipped with a micro-toothed stainless steel blade that allows straight and precise cuts and the cable-cutting function that allows you to avoid cutting the cable cleanly but to be able to engrave the cable and deprive it of its coating (sheath).
