DESCRIPTION

The EW3263 Wireless Keyboard and Mouse set contains a slim full-size keyboard and a 1600 DPI mouse. The keyboard has silent low-profile keys and 13 multimedia keys. The mouse has a DPI switch with a optical resolution of 800-1200-1600 DPI. Both the keyboard and mouse work with a USB-C and USB-A combi receiver and are equipped with an intelligent energy-saving system and on/off switch.
Keyboard with low-profile silent keys
The keyboard has a slim design and is equipped with low-profile ‘chocolate’ keys and 13 multimedia keys. The low profile keys ensure comfortable typing. The multimedia keys give you access to convenient functions like volume control or open your email effortlessly.
Silent keyboard
In contradiction to other keyboards, this keyboard has silent keystrokes which reduces the excess noise while typing. This keyboard is ideal for use at the office.
1600 DPI Mouse
The wireless mouse in this bundle has an optical resolution of 1600 DPI. Use the DPI switch to shift between 800-1200-1600 DPI. Choose the desired sensitivity for every surface. Besides the normal buttons the mouse also has thumb buttons. The combi receiver can be stored in the dedicated compartment inside the mouse.
Combi receiver with USB-C and USB-A
Both the keyboard and the mouse work wirelessly via ONE combi receiver. This combi receiver has both a USB-C and a USB-A connector. The only thing you need is ONE free USB-C or USB-A port on your computer.
Intelligent energy-saving system
The keyboard and mouse have an intelligent energy-saving system. Use the convenient on/off switch when putting the mouse in a bag while traveling and prevent the usage of useless power.
