EW3564

Over-ear stereo headset with microphone and volume control

- Over-ear stereo headset with flexible microphone and volume control for handsfree communication
- Suited for all (video) chat applications and listening to music
- Foldable headset with padded ear cushions, adjustable headband and large 40mm speaker driver for crystal clear audio
- Suited for devices with a combined 3.5mm audio jack
- Including audio adapter for use with PCs

DESCRIPTION

Use the EW3564 over-ear stereo headset during your (video) meetings via the Internet, for listening to music or playing games. This headset has comfortable padded over-ear cushions. The volume control is integrated in the ear cap. Connect the headset with the combined 3.5mm audio jack to your laptop, smartphone or tablet. The enclosed audio adapter cable ensures the connection to a PC. Take the headset easily along by its foldable and thus compact design.
Comfortable padded over-ear pads
The EW3564 headset is equipped with comfortable padded over-ear cushions. The headband is padded and can be adjusted to your own preferred fit.
Crystal clear audio and flexible microphone: ideal for video chatting, listening to music and playing games
The large 40mm speaker driver ensures crystal clear audio. Together with flexible microphone is this headset the ideal companion for making video calls, listening to music and gaming.
Integrated volume control
Control easily the audio with the volume control. The volume control is integrated in the ear cup.
Foldable design
The EW3564 headset has a foldable design. Take the headset easily along or store it in your bag without taking too much space.
3.5mm audio jack and adapter cable
The headset is suitable for devices with a combined 3.5mm audio jack plug (microphone and speaker in one) e.g. laptop, smartphone or tablet. A PC often has two separate plugs: microphone and speaker. With the enclosed audio adapter the headset can be used on a PC.
