### DESCRIPTION

EWENT EW3525 stereo soundbar with 12W of maximum power, has been designed to reach the entire gamer public and all those users who want to enjoy the best sound without needing a large space. Its small format design, its accessibility in all times and its variety of color light combinations guarantee an unimaginable gaming experience.
The EWENT EW3525 stereo soundbar Bluetooth connection and its sound connection via cable also allow almost any television to be connected. Its illuminated volume control allows you to turn the device on or off apart from raising or lowering the volume.
The 12W of maximum power together with the wide variety of light combinations with touch light control (you can choose between 6 modes. Among them rhythmic, breathing or fixed RGB) will make your gaming experience unbeatable and enjoy to the fullest.
You only have to make the connection of its cable with a 3.5mm jack connector to the 3.5mm headphone jack of the PC or laptop and the USB cable to the device itself where the sound cable or an external 5V USB socket is connected to get electricity.
EWENT EW3525 sound bar has the latest Bluetooth technology that will allow you to connect it to your Bluetooth sound source and enjoy your favorite music stored on your device. Its versatile size makes it essential to accompany you during your travels and thus continue to enjoy your music anywhere.
The Bluetooth connection and its sound connection via cable also allow almost any television to be connected. Its illuminated volume control allows you to turn the device off or on apart from raising or lowering the volume.
