EW3269

Wired Keyboard with backlight illumination (ES layout)

• Compact full-size keyboard with low-profile silent keys, 12 multimedia keys and backlight illumination
• Adjust the brightness of the backlight illumination or disable it completely
• USB powered: cable length 1.5m
• Windows Lock key to lock the Windows menu

DESCRIPTION

The EW3269 is a slim full-size keyboard with low-profile silent keys and 12 multimedia keys. The keyboard has backlight illumination with adjustable brightness. Do you prefer working without backlight? Disable the illumination easily. The keyboard is USB powered and has a cable length of 1.5m.
Keyboard with low-profile keys
The keyboard has a slim design and is equipped with low-profile silent scissor keys, 12 multimedia keys and Windows Lock key. The multimedia keys give you access to convenient functions like volume control or open your email effortlessly.
Silent keyboard
In contradiction to other keyboards, this keyboard has silent keystrokes which reduces the excess noise while typing. This keyboard is ideal for use at the office.
Backlight illumination
The EW3269 is equipped with backlight illumination. You can adjust the brightness easily with the dedicated keys on the keyboard. The illumination helps you find your keys more easily when working in a darker environment. Do you prefer working without the backlight? The backlight can be disabled as well.
