DESCRIPTION

Wireless keyboard and multi-device Bluetooth
The Ewent EW3275 wireless keyboard features Bluetooth and 2.4G wireless technology. It is possible to connect up to three devices at the same time and switch between them by pressing the dedicated button. The keyboard is compatible with Windows PC, Mac, iPad, iPhone, laptop, PC, Windows and Android.
Dedicated Windows and Mac keys
The Ewent keyboard is compatible with both Windows and Mac OSX systems and features the classic operating system control keys. Windows key, Alt, Alt gr, cmd, Alt + option.
Low profile, concave keys for fast and comfortable typing.
With the low-profile keys, the wireless keyboard enables fast typing speeds. The back of the keyboard has non-slip pads to keep the keyboard stable. The concave shaped keys allow the finger to be pressed more comfortable.
Full-size design
The material used for the Ewent wireless keyboard is high density polycarbonate to increase its durability. The large size of the keyboard allows your fingers ample space for easier typing. Shortcuts like Play, Pause, Volume and Brightness allow you to stay in the zone without having to open other programs or settings just to make changes.
Wide compatibility
The Ewent keyboard is compatible with Bluetooth devices of Windows 8/10/11 or later, Mac OS X 10.13 or later, and Android 4.3 or later.
