- With long extended cable 1.2m meters let you freely adjust the access to your PC, tablet or other devices.
- Each port has an individual power switch and led indicator
- Included extra 5V 2A power adapter

DESCRIPTION

7-Port Powered USB Hub with Power Adapter easily turns one USB port into 7 ports and helps you to easily connect multiple USB devices such as external hard drives, USB flash drives , mouse, keyboard, USB headphones, speakers, printers, scanners, card readers and many more to your PC, PS4, Xbox or laptop regardless of USB connector type because it has an additional USB Type-A to Type-C adaptor.
Our powerful USB Hub has independent switches and indicator light for each USB port. Each USB port is individually controlled and does not affect other USB ports in operation. You can easily manage many USB devices without the hassle of repeatedly plugging and unplugging USB devices. Perfect for protecting your computer's USB ports. LED indicators on each switch tell you each USB port's operational status even in the dark.
Our EW1147 7-port USB Hub allows super-fast data transfers at a whooping 5 Gbps which allows you to transfer HD movies or extremely large files in the blink of an eye. Connect USB 1.0, 1.1, and 2.0 devices with ease as this Hub is fully backwards compatible with USB devices earlier than USB 3.0.
The additional 5V 2A power supply included with the Hub easily powers the Hub when there are multiple power-hungry USB devices connected to it, i.e., multiple hard drives connected to the Hub. The additional power supply allows the Hub to operate more quickly and more stably.
The EWENT EW1147 7-port Hub comes with a USB Type A to Type C adapter which provides full compatibility with devices which have USB Type A and/or Type C ports.This allows the hub to be connected to any laptop or desktop with USB Type A and/or Type C ports.
This USB hub is compatible with Windows 10/8/8.1/7/Vista/XP, Mac OS, Linux, and Chrome OS. Support for over-current/over-voltage/reverse current and hot swapping

TECHNICAL

- Transmission data USB 3.0 data transfer up to 5Gbps
- Max power of each port 900MA
- Each port has an individual power switch and a blue LED power indicator
- With USB adapter USB-A female to USB-C male adapter
- Cable length: 1.2 meters
- With power switch
- Power adapter EU standard 5V 2A adapter (dc size:3.5* 1.35mm)
- Hub size 16.4 x 4.7 x 2.1cm
- Cable length:1.2m
- Support System: Mac OS, Chrome OS, Linux, Surface Pro; Windows 11/10/8.1/8/Vista/XP etc.
- Color black
- Cover material ABS
