EW5677

PTFE anti-friction dry lubricant spray 400ml

• PTFE Lubricant (universal) is a high quality synthetic product with the characteristic of being highly repellent against rust and moisture.
• Contains PTFE which leaves a dry film on the product allowing lubrication and protection avoiding the attraction of dirt, dust and grease.
• The high-performance lubricant evaporates without leaving any residue.
• Compatible with metals, plastics and glass
•
• Avoid wear and blocking of the treated parts
• Excellent grip, Excellent mechanical and thermal stability
• Resists weak acids and bases, silicone free
• Resists weathering, water repellent, targeted spray
• 100% ozone friendly
• Content: 400ml
