DESCRIPTION

With the EW3859 cubic power socket you can connect 3 electrical devices and 3 USB devices at the same time. The USB ports have a total capacity of 2.4A and have overload protection. The cubic Power Block can be placed on the desk and the 4 non-slip feet ensure that the power strip stays in place. It is possible to enable or disable all power outlets and USB ports at the same time with the on / off switch illuminated.
3 power sockets and 3 USB ports
The EW3859 cubic power socket has 3 power sockets for connecting 3 electrical / electronic devices. The 2 normal USB type A ports (5V / 2,4A) and above all 1 USB type C port (5V / 3A, 9V / 2.22A, 12V / 1.66A) are suitable for charging the most modern and up-to-date tablets / smartphones and devices. electronic. The two USB Type A ports are suitable for charging smartphones and tablets with a maximum load of 2.4A at once while the latest generation USB Type C port supports fast charging (PD Quick Charge 3.0)
Enable or disable all power outlets and USB ports with 1 switch
Use the illuminated switch to enable or disable the entire power outlet at the same time. This is an excellent feature to save on the electricity bill and for security reasons. Use of standby power is prevented. It is safer to disable all electrical devices at the same time than to have all devices enabled at all times.
Space-saving design
The EW3859 features a space-saving cubic design and takes up only limited desk space. All power sockets and USB ports are easily accessible. It is equipped with a 1.5m long cable. In addition, the space-saving 16A Italian plug is equipped with a 90 ° angle which makes it ideal for being inserted into wall sockets present in tight and confined spaces!
Safe device
The USB ports and power outlets are equipped with overload protection.
