• Charging stops automatically when the battery is full. Quadruple protection: Over Temperature, Over Voltage, Over Current, Over Power.
• With 1x USB-C Power Delivery port and 1x USB-A port charge two devices simultaneously

DESCRIPTION

The EW3978 USB Type-C 65W charger is the perfect companion for various devices including laptops, smartphones, tablets with USB Type-C charging port and also with additional USB-A port. The notebook is always charged with the correct amount of electricity thanks to the predefined PD (Power Delivery) profiles. The charger communicates with the notebook and negotiates the most effective charging profile. Do you have a Smartphone/tablet with USB type C connector? EW3978 also charges Smartphone/tablet. The EW3978 USB Type-C wall charger for notebooks with PD (Power Delivery) comes with a total cable length of 150cm. You can move more freely with your notebook/smartphone/tablet without having to sit near the wall socket. Thanks to its compact design, EW3978 fits comfortably in your bag and becomes ideal for your travels or simply taking it to the office or at home.
The charger is equipped with a quadruple protection system that protects against overheating, overvoltage, overcurrent and short circuits. Also, the USB Type-C charger will stop charging when it notices that the battery is full
