EW1195

Power adapter 3-ways with spacesaving Rotating Italian plug 16A

• 3 Italian/Schuko 10/16A electrical sockets to power 3 electrical devices
• Enable and disable all electrical outlets at once with the illuminated ON/OFF power switch
• Modern design that does not take up space: all electrical outlets are easily accessible
• Safe Charging: The power strip is equipped with overload protection and Children Protection
• Space-saving Rotating Plug: The plug rotates 90° and allows you to attach the adapter to the socket horizontally or vertically

DESCRIPTION

With the EW1195 power socket it is possible to connect 3 electrical devices simultaneously. You can place the adapter in any wall socket in your home or in any other place such as offices, garages, warehouses, etc. You can enable or disable all power outlets at once with the illuminated on/off switch.
3 power sockets
The EW1195 power socket has 3 power sockets for connecting 3 electrical/electronic devices.
Enable or disable all power outlets with 1 switch
Use the illuminated switch to enable or disable the entire power outlet at once. This is a great feature for saving on your electricity bill and for safety purposes. The use of standby power is prevented. It is safer to disable all electrical devices at once, rather than have all devices enabled at all times.
Space-saving design and rotating plug
The EW1195 features a space-saving design and only takes up limited wall space. All power outlets are easily accessible.
The space-saving 16A Rotating Italian plug allows you to attach the adapter to the socket horizontally or vertically, making it ideal for inserting into wall sockets found in narrow and narrow spaces!
Safe device
The device is equipped with Child protection on every single socket.
