• Accessible helpdeskv

DESCRIPTION

Control your mouse more comfortably by using the EW3183 Mouse Pad! A high quality, soft mat with a polyester and rubber finish
Polyester fabric
This mouse pad gives a sense of luxury, thanks to the polyester material.
It is made of soft material to make it long-lasting and easy to clean.
The uniform and thin surface ensures that all mouse movements are transferred precisely to the cursor. Thanks to the non-slip rubber base, the mouse pad does not move from place. Furthermore, the height of only 6 mm promises relaxed wrists even after hours of gaming sessions.
Standard dimensions
The standard dimensions of the mat (250x200x6mm) make it ideal in different environments: for example in the office to furnish your desk and at home for Smart Working, Home Office and Gaming applications. Compact and easy to carry when traveling to allow you to use the mouse in any environment or means of transport (train, plane, etc.)
Use everywhere
It doesn't matter whether you have an optical or laser mouse, the mouse pad is suitable for both optical and laser mice. The EW3183 offers more comfort and precise, balanced mouse control.
