# EW1161

## POWER BANK 10000mAh THIN PD 22.5W

• Fast PD 22.5W charging – Supports Power Delivery (PD) and Quick Charge (QC), providing ultra-fast charging for a wide range of devices.
• Simultaneous charging of 3 devices – The USB-C and USB-A outputs allow you to charge three devices at once, making it easier to use while traveling or sharing with friends.
• Additional Micro-USB input – The inclusion of an additional Micro-USB input makes this power bank even more versatile, allowing the use of old cables and an extra connection option.
• UltraSlim design – At just 15mm thick, this power bank is extremely compact and portable, perfect for keeping in your pocket or bag.
• Ultra-fast charging – 60% battery charged in 30 minutes, using PD QC 22.5W technology for more efficient charging.
• USB-C and USB-A outputs – Equipped with USB-C and USB-A ports, the Compact model fits perfectly with USB-C charging devices like iPhone, iPad, and other modern devices.
• 5-year warranty and certified safety – Made with high-quality materials, this power bank complies with safety standards and includes a 5-year warranty.

### DESCRIPTION

This Power Bank Slim 10000mAh offers fast and efficient charging with a thickness of only 15mm, making it extremely compact and easy to carry. Featuring Power Delivery (PD) technology of 22.5W, it allows you to charge three devices simultaneously with a combination of USB-C and USB-A outputs. It is ideal for those who are looking for fast and versatile charging for smartphones, tablets, and other devices.
The UltraSlim design makes it one of the thinnest and lightest power banks on the market. It also includes an additional Micro-USB input to ensure that you don't lose the use of old cables. Intelligent protection against overcharging and overheating ensures your devices are charged safely and efficiently.
Additionally, the fast charging technology allows you to charge up to 60% of the battery in 30 minutes, optimizing charging time. With safety certification and a 5-year warranty, this product is the ideal solution to keep your devices always ready.

### TECHNICAL

• Capacity: 10000mAh
• Battery Type: Li-Polymer
• Fast Charging: Power Delivery (PD) 22.5W / Quick Charge (QC)
• Micro-USB Input: 5V-2A; 9V-2A; 12V-1.5A
• USB-C Input: 5V-2.5A; 9V-2A; 12V-1.5A
• USB-C Output: 5V-3A; 9V-2.22A; 12V-1.67A
• USB-A Outputs: 5V-3A; 9V-2A; 10V-2.25A; 12V-1.5A
• Simultaneous Charging: Yes, allows charging of 3 devices at the same time
• LED Indicators: Yes, shows the remaining battery level
• Safety Protection: Protection against overcharging, overheating, and short circuits
• Dimensions: 136 x 69 x 15 mm
• Weight: Lightweight and portable, easy to carry

### LOGISTIC
