EW1292

Adjustable X-Stand with Wheels for CPU

• Adjustable and Versatile: This stand features a scissor-type adjustment system that allows you to adjust the width up to 25 cm, ensuring a perfect fit for your desktop PC or tower. No need to worry about your device's size, as it adjusts in seconds.
• Mobility and Stability: Equipped with 5 multidirectional wheels with brakes, it allows you to move your equipment easily without lifting it. The lockable wheels ensure the stand stays in place when needed, providing increased stability and security.
• Load Capacity: Made of high-quality ABS material, this stand is sturdy and can support up to 25 kg, making it suitable for heavier equipment.
• Additional Protection: By elevating your PC off the floor, this stand helps prevent dust and moisture, protecting your device from potential water or static electricity damage. This contributes to extending the lifespan of your computer.
• Easy Installation: The stand comes with a quick installation guide, making it easy to attach the wheels and use it right away.

DESCRIPTION

EWENT EW1292 Adjustable X-Stand with Wheels for CPU
The EWENT EW1292 Adjustable X-Stand with Wheels for CPU is a practical and versatile solution for anyone looking to organize and protect their desktop computer setup. With its adjustable width, durable construction, and ease of mobility, this stand is perfect for keeping your computer tower off the floor while offering convenience, safety, and enhanced functionality.
Enhanced Mobility and Flexibility
One of the standout features of the EWENT EW1292 is its ability to move your CPU effortlessly, thanks to the five multidirectional wheels. These wheels allow you to smoothly transport your computer across the floor without the need to lift it, which can be a cumbersome task, especially for heavier systems. The 360-degree rotating wheels enable you to move the stand in any direction, providing maximum flexibility when rearranging your workspace or cleaning around your PC. Whether you need to move the unit from under your desk or reposition it for better airflow, the mobility of this stand makes it incredibly convenient.
To ensure that the stand stays securely in place when you don’t need to move it, two of the five wheels are equipped with a brake system. By simply pressing the brakes, you can lock the wheels in place, preventing the stand from rolling and ensuring your CPU remains stationary. This adds an additional layer of stability, so you don’t have to worry about the stand shifting unexpectedly, even on slightly inclined surfaces.

TECHNICAL

• Material; ABS
• Prevents static electriicity and marks
• Multi-directional wheels with brakes
• Dimensions : 400 x 80 mm (folded) ; 310 x 270 mm (unfolded); adjustable width for 250 mm CPU
• Supports up to 25 kg
•
