IM1319

Slim, flexible Cat.6A U/FTP network cable – 2 m

• Slim Cat.6A patch network cable with 100% bare copper conductors
• Connectors: 2 × RJ45 male/male
• Shielded cable (U/FTP)
• Flexible snagless boots to protect RJ45 latches and allow easy bending to the desired angle
• PVC jacket: flexible and durable
• Construction: 4 twisted pairs, 32 AWG
• Slim design, ideal for tight spaces and tidy cabling
• Color: white

DESCRIPTION

This slim Cat.6A patch cable combines a compact form factor with reliable performance, making it perfect for clean installations at home or in the office. The 100% copper conductors ensure stable, accurate transmission—ideal for high-speed connections and continuous use. The PVC jacket provides flexibility and wear resistance, while the slim profile makes it easy to route through narrow conduits, behind furniture, or inside racks and cabinets, keeping your cabling neat.
At each end, two RJ45 male connectors feature flexible, snagless boots that protect the latches and let you bend the cable smoothly to the desired angle, reducing mechanical stress on the connectors. The shielded U/FTP construction with 4 twisted pairs in 32 AWG offers excellent handling without compromising signal quality, making the cable suitable for connecting routers, switches, patch panels, PCs, and network devices in environments with normal levels of interference.

TECHNICAL

• Slim Cable: Yes
• AWG 32
• Ineer conductor: Copper 100%
• Category: Cat.6A
• Sheat: PVC
• Shilding: U/FTP
• Cable: Twisted Pair
• Length: 2 m
