DESCRIPTION

Multi-Device Charger: clean and Organize
The USB charging station for multiple devices can charge 6 USB-powered devices including Smartphones, tablets, Notebook, Netbook or iPhone, iPads together. All devices charged through 1 plug instead of having 6 different sockets, solve the scattered state, save the whole family time.
NO more messy cables, NO lots of chargers, all in one place, clean and organized.

4 USB-C PD 3.0 Fast Charge ports
The charging station is equipped with 2 USB-C ports with 65W single output each: you can charge your USB-C laptop
In the meantime you can charge your Tablet and Smartphone with another 2 USB-C ports with 30W single output each ! The station has a total of 4 Type-C ports
It can charge the newest compatible IPhone up to 3 times faster than conventional charging and charge compatible devices up to 50% in just 30 minutes.
Compatible devices: Nintendo Switch, iPad, iPhone, Samsung Galaxy and so on

2 USB-A QC 3.0 charge ports
The charging dock has 2 USB-A QC 3.0 ports that saves device charging time up to 4 times longer than conventional chargers.

Removable Dividers
The splitters of the USB 6 charging station can be adjusted with different widths of devices and can be configured to fit all kinds of devices. You can then adjust the correct space for charging your device by simply adding or removing one of the supplied dividers!

Multiple Protection Charge
The multi charging station has passed various safety tests such as Overcharge, Overvoltage, Overcurrent, Short Circuit, Overload, Temperature Control (Over heat) to provide you with a safe charging design.
It features a dynamic temperature sensor that actively monitors temperature and a power tuner chip to adjust the power output to protect all your connected devices.

SmartWatch and Earphopne Holder
With the new Smartwatch and Earphone holder, all your phones, iWatch and Airpods charge in one place, clean and organized.
