EW1337

140W GaN Fast 4-port (3 USB-C PD and 1 USB-A QC) charger Compact Design with 2m USB-C Cable

• Charge your next-generation Apple devices (including iPhone 17, iPad, and MacBook) and Android devices
•
• 140-Watt USB-C smartphone/tablet and notebook charger for fast charging: up to 75% charge in 30 minutes
• Supports USB-C Power Delivery 3.1 QC5.0 fast charging. Charges smartphones and tablets with 3 USB-C ports and 1 QC 3.0 USB-A port
• Designed for newest generation iPhones, including iPhone 17, and Android Power Delivery-enabled devices, as well as notebooks, MacBooks, iPads, Bluetooth headphones, tablets, power banks, and even game consoles
• Powerful charging performance in a compact design thanks to GaN Fast technology
• Charging stops automatically when the battery is full
• Equipped with built-in protection that protects connected devices from over current, over load, over voltage, and Temperature control
• Features 2 USB-C Power Delivery PD 3.1 QC 5.0 ports; 1 USB-C Power Delivery PD 3.0 port; 1 USB-A QC3.0 port
• Charges four devices simultaneously
• Compact design
• 2m USB-C to USB-C Power & Data PVC cable, 240W

DESCRIPTION

Charge four devices simultaneously
Charge your MacBook and at the same time your iPhone and AirPods with the Ewent EW1337 140W 4-port charger (3 USB-C PD ports + 1 USB-A QC 3.0 port). Enjoy up to 140W power when using a single USB-C port. This powerful yet compact USB-C charger is easy to carry with you. The USB-C charger automatically stops charging when the battery is full.

For Apple devices (including iPhone 17)
The latest iPhones include only a charging cable. A USB-C charger is not included. The EW1337 140W GaN Fast USB-C and USB-A charger is designed to charge the latest iPhones and MacBooks. Connect your iPhone to the Ewent 140W USB-C and USB-A fast charger and your smartphone will be charged up to 75% in just 30 minutes.
Android devices with Power Delivery support
Use the 140W EW1337 3xUSB-C PD3.1 QC5.0 and QC3.0 fast charger to charge your Android smartphone/tablet or Laptop/Notebook with Power Delivery support. The USB charger negotiates with your smartphone/tablet to determine the appropriate charging profile.
GaN Fast Technology
The Ewent EW1337 charger features GaN Fast technology. GaN stands for gallium nitride, a material used in power electronics. GaN increases charger efficiency while reducing size and weight. PD stands for Power Delivery, a technology that allows devices to be charged at higher power levels, enabling faster charging times.

Advanced PPS Technology
The 140W 3xUSB-C + QC3.0 fast charger features PPS (Programmable Power Supply), a standard referring to advanced charging technology for USB-C devices. It can adjust voltage and current in real time, delivering maximum power according to the device's charging status. The main advantage of PPS over other standards is its ability to reduce conversion loss during charging. This means less heat is generated, which extends the lifespan of the device.

Compact Design
The linear design fits perfectly into any environment, such as office or home, while remaining compact and easy to carry with you when traveling.

2-Meter Type-C Cable

Practical 2-meter black PVC cable with Type-C to Type-C male connectors included in the package.
The 2-meter length allows the adapter to be used to charge a device even when the wall outlet is farther away or harder to reach.
Powerful 240W charging cable (power & data) equipped with an intelligent E-Marker chip (PD3.1 + QC5.0).
