DESCRIPTION

Charge four devices simultaneously

Charge your MacBook and at the same time your iPhone and AirPods with the Ewent EW1336 100W 4-port charger (3 USB-C PD ports + 1 USB-A QC 3.0 port). Enjoy up to 100W power when using a single USB-C port. This powerful yet compact USB-C charger is easy to carry with you. The USB-C charger automatically stops charging when the battery is full.

For Apple devices (including iPhone 17)

The latest iPhones include only a charging cable. A USB-C charger is not included. The EW1336 100W GaN Fast USB-C and USB-A charger is designed to charge the latest iPhones and MacBooks. Connect your iPhone to the Ewent 100W USB-C and USB-A fast charger and your smartphone will be charged up to 75% in just 30 minutes.

Android devices with Power Delivery support

Use the 100W EW1336 3xUSB-C PD3.0 QC4+ and QC3.0 fast charger to charge your Android smartphone/tablet or Laptop/Notebook with Power Delivery support. The USB charger negotiates with your smartphone/tablet to determine the appropriate charging profile.

GaN Fast Technology

The Ewent EW1336 charger features GaN Fast technology. GaN stands for gallium nitride, a material used in power electronics. GaN increases charger efficiency while reducing size and weight. PD stands for Power Delivery, a technology that allows devices to be charged at higher power levels, enabling faster charging times.

Advanced PPS Technology

The 100W 3xUSB-C + QC3.0 fast charger features PPS (Programmable Power Supply), a standard referring to advanced charging technology for USB-C devices. It can adjust voltage and current in real time, delivering maximum power according to the device's charging status. The main advantage of PPS over other standards is its ability to reduce conversion loss during charging. This means less heat is generated, which extends the lifespan of the device.

Compact Design

The linear design fits perfectly into any environment, such as office or home, while remaining compact and easy to carry with you when traveling.
