

EW1615

Ultra-Slim Fixed TV Wall Mount 50" - 100", 9mm Low Profile, 75kg Capacity

- Ultra-Slim 9mm Profile – Keeps your TV nearly flush to the wall for a clean, modern look
- Heavy-Duty Support – Supports up to 75kg (165 lbs) and TVs up to 100"
- VESA Indicating Marks – Ensures quick and precise installation alignment
- Magnetic Contact System – Securely holds TV in place, preventing shifting
- Lateral Shift Adjustment – Allows easy left-right positioning after mounting
- Integrated Kickstand – Provides space for cable management and maintenance
- Wide VESA Compatibility – Fits multiple mounting patterns up to 850×800
- Durable Steel Construction – Strong, reliable build with powder-coated finish

DESCRIPTION

Upgrade your home entertainment setup with the EW1615, a premium ultra-slim fixed TV wall mount designed for modern living spaces. With an exceptionally low 9mm profile, this mount keeps your TV almost flush against the wall, creating a clean, minimalist look that complements any room.

Built for strength and reliability, the EW1615 supports TVs from 50" to 100" and holds up to 75kg (165 lbs), making it ideal for large, heavy displays. Its durable steel construction and 4× strength-tested design ensure long-lasting performance and peace of mind. Installation is simple and precise thanks to VESA indicating marks, which help you position the brackets accurately the first time. Lateral shift brackets allow for fine left-right adjustments after mounting, ensuring perfect screen alignment even if wall studs aren't centered.

Thoughtful design features enhance everyday usability. The magnetic contact system keeps your TV securely locked in place against the wall plate, while the integrated kickstand provides convenient space for cable management and easy maintenance access—without needing to remove the TV.

Compatible with a wide range of VESA patterns up to 850×800, the EW1615 offers flexible installation options on solid walls or double stud configurations.
