- Flat Pack design for reduced shipping costs and easier storage
- Quick and easy assembly
- Black powder-coated finish (RAL 9005)
- Compatible with all standard 19" rack-mount equipment

DESCRIPTION

The SoHo Series 19" Wall Mount Rack Cabinets are designed to provide a practical, reliable, and cost-effective solution for small networking installations, CCTV systems, telecommunications, and structured cabling environments.
Manufactured from quality steel and finished in durable RAL 9005 black powder coating, the SoHo Series offers an excellent balance between robustness and affordability. The cabinet features 1.0 mm thick rack rails and a 0.6 mm steel frame and panels, providing reliable support for rack-mounted equipment with a maximum load capacity of 50 kg.
The cabinet includes four adjustable rack rails (front and rear), allowing flexible installation of switches, patch panels, routers, DVRs, NVRs, and other standard 19" rack equipment.
A 5 mm tempered glass front door provides visibility of installed equipment while ensuring protection through a key-operated lock. The door is reversible and can be configured for either left or right-hand opening. Removable side panels offer convenient access during installation and maintenance operations.
For efficient cable routing, the cabinet includes top and bottom cable entry points. The roof panel is designed to support the installation of up to two 120 mm cooling fans to help maintain proper airflow inside the cabinet.
Supplied in Flat Pack format, the SoHo Series reduces transportation and storage costs while enabling quick and straightforward on-site assembly.
Developed for home offices, small businesses, retail installations, and entry-level IT environments, the SoHo Series delivers dependable performance, easy access, and excellent value.
