DESCRIPTION

The 19" 1U Fixed Shelf is designed to provide a practical and reliable mounting platform for equipment that cannot be directly installed on standard 19" rack rails.
Constructed from high-quality steel and finished with a durable RAL 9005 black powder coating, the shelf offers excellent strength and long-term durability for professional networking, telecommunications, CCTV, and IT installations.
With a compact 200 mm depth, the shelf is specifically designed for use in 400 mm, 450 mm, and 600 mm deep wall mount cabinets, making it ideal for compact rack environments where space optimization is essential.
The shelf occupies only 1U of rack space and can be used to support devices such as routers, modems, media converters, mini PCs, power supplies, controllers, and other equipment not intended for direct rack mounting.
Its ventilated surface design helps promote airflow around installed devices, contributing to improved cooling and operational reliability.
Suitable for both professional and residential environments, the 19" 1U Fixed Shelf is an essential accessory for maximizing the usability and flexibility of wall mount rack cabinets.
