• 2U rack height
• Designed to cover unused rack spaces
• Durable steel construction
• Black powder-coated finish (RAL 9005)
• Professional appearance for rack installations
• Improves airflow management inside the cabinet
• Prevents accidental access to unused rack spaces
• Compatible with all standard 19" racks and cabinets
• Easy installation

DESCRIPTION

The 19" 2U Blank Panel is designed to cover unused rack spaces in 19" cabinets and racks, providing a clean, professional, and organized appearance.
Manufactured from high-quality steel and finished with a durable RAL 9005 black powder coating, the panel offers excellent strength and long-term durability in networking, telecommunications, CCTV, and IT installations.
By covering unused rack units, the blank panel helps improve airflow management inside the cabinet while preventing dust accumulation and accidental access to internal equipment and cabling.
Occupying 2U of rack space, it provides a simple and effective solution for maintaining a neat rack layout and achieving a professional installation finish.
Suitable for data networks, security systems, telecommunications infrastructure, and server environments, the 19" 2U Blank Panel is an essential accessory for any rack installation.
