EP1985

19" 24-Port Cat.6 UTP Patch Panel

• 19" rack-mount patch panel
• 24 × RJ45 Cat.6 UTP ports
• 1U rack height
• Supports Gigabit Ethernet networks
• Unshielded twisted pair (UTP) design
• Compatible with Cat.6 network cabling
• Clearly numbered ports for easy identification
• Designed for structured cabling installations
• Durable metal construction
• Ideal for networking, telecommunications and IT infrastructures
• Easy installation

DESCRIPTION

The 19" 24-Port Cat.6 UTP Patch Panel is designed to provide an efficient and reliable solution for structured network cabling in professional networking environments.
Featuring 24 RJ45 Cat.6 UTP ports, it enables the centralized termination and organization of network cables, providing a clean and structured connection point for switches and other network equipment.
Designed for Gigabit Ethernet networks, the patch panel supports reliable data transmission and helps simplify network installation, maintenance and troubleshooting.
Its standard 19" rack-mount design occupies only 1U of rack space, making it suitable for network cabinets, server racks and telecommunications installations.
Ideal for offices, commercial buildings, data networks and professional IT environments, the 19" 24-Port Cat.6 UTP Patch Panel provides an organized and scalable solution for structured cabling infrastructures.

TECHNICAL

• General
• Product Type: Patch Panel
• Rack Standard: 19"
• Rack Height: 1U
• Number of Ports: 24
• Connector Type: RJ45
• Category: Cat.6
• Shielding: UTP (Unshielded)
• Color: To be confirmed
• Construction
• Material: To be confirmed
• Mounting Type: Rack Mount
• Installation
• Compatible Rack Width: 19"
• Required Rack Space: 1U
• Package Contents
• 19" 24-Port Cat.6 UTP Patch Panel
• Mounting Hardware
